\*\* Optional high speed version.

## TU220

The taping unit covers the range from 50-220 mm tape width. FAS recommend to use a gummed paper quality of 80-90 g/m2 with vegetable glue of 15 g/m2. The unit can work with both length control or with a photocell for print in register. The unit can be mounted to our models SP500/800, TW475 and BW/BWU900. Retrofit to older winder units is possible with some program changes. Contact FAS service for further information.
